

REMARKS

Claims 1-20 and 27 are pending. A minor, non-narrowing amendment has been made to claim 1 to clarify that the second processing section is responsive to commands of the second command type for executing a second process in accordance with one or more commands of the second command type included in the data stream. In addition, claims 32-39 have been canceled in response to the Examiner's restriction requirement issued in connection with the final office action of August 18, 2004. Applicants reserve the right to present the subject matter of claims 32-39 in a divisional application filed at an appropriate time.

Accordingly, it is respectfully submitted that this application is now in condition for allowance. Favorable action is respectfully requested.

Respectfully submitted,
